INDIANA UTILITY  
REGULATORY COMMISSION

CAUSE NO. 42444

You are hereby notified that the Indiana Utility Regulatory Commission has, on this date, caused the following Docket Entry to be made as a Commission Data Request:

In order to assist the Commission in its consideration of the Petition in this Cause, Petitioner is directed to fully respond to the following Data Request within six (6) business days of the date of this Entry:

1. Why is "transit" and the location and operation of the LATA tandem an issue? Explain in detail why SBC's refusal to "transit" local calls through its Class 5 office is a problem in providing local service to people in the Bluffton exchange. Also explain how the issue of tandem office for this LATA being in Fort Wayne, Indiana, and the operator being Verizon affects the offering of local service in Bluffton, Indiana.

2. Why is this not a problem for other CLECs doing business in Indiana?

3. Who will be included in your local calling scope, if your request is approved? Please be specific.

4. What are examples of your optional calling plans?

IT IS SO ORDERED.

  
Thomas Cobb, Administrative Law Judge

Date: 6/27/03

  
Nancy E. Manley, Secretary to the Commission
